

HANDCRAFTED LUXURY, REFINED SECURITY

IN THE HEART
OF THE

RENAISSANCE
SINCE 1949

The dawn of Agresti's history can be traced back to the beginning of the last century. The company was founded in 1949 in Florence, an everlasting cradle of art and beauty, and still home to this day to the company's precious creations. Agresti originated with the production of leather goods and later specialized in creating chests, constructed with precious wood, and lined and divided inside to store all types of jewelry and objects of value. In keeping with the purest Tuscan tradition, continuous technological research, and attention to detail, Agresti has made its collections unique and distinguished by exceptional craftsmanship.

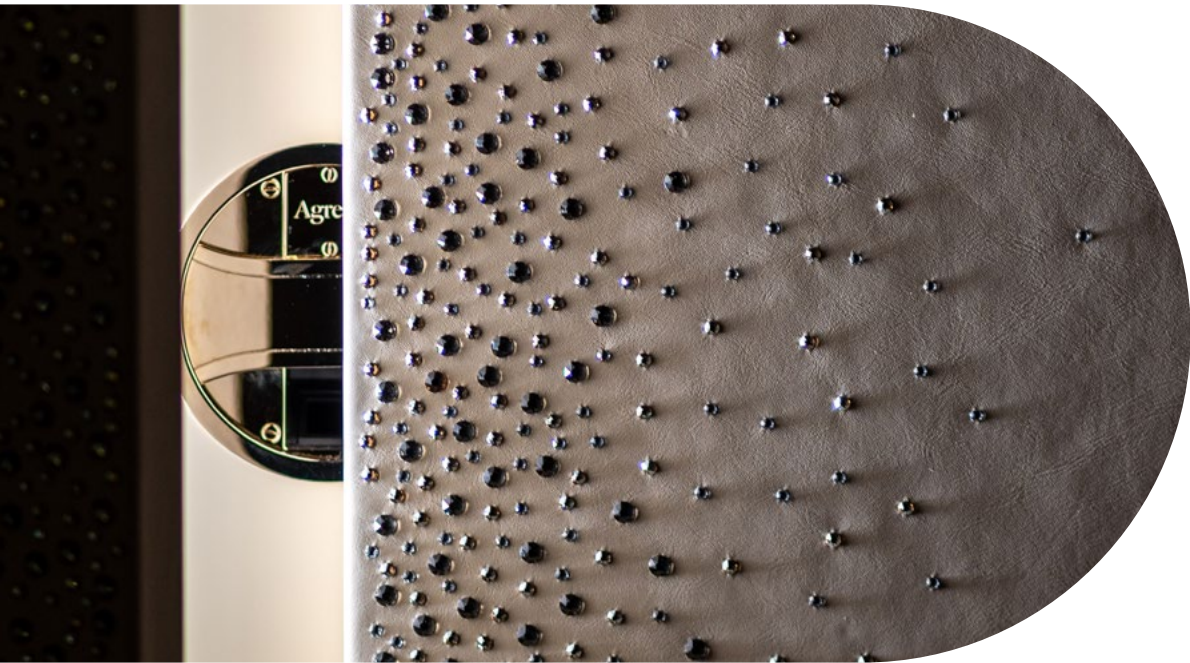

THE PERFECT COMPLEMENT FOR A HOME WITH REFINED TASTE

Artisan tradition intersects with style
and the use of unique raw materials.
At Agresti's headquarters, skilled craftsmen work with the
highest quality materials and
transform them into unique products.
Armoured armoires; innovative Swiss-made winders for
automatic watches; jewelry chests; cases outfitted for pen
collections, watches and documents; refined cases for cigars
and games; and elegant armoires for wines and spirits.

PROUDLY HANDCRAFTED

IN FLORENCE

TAILOR MADE,
PERSONALISED AND UNIQUE.

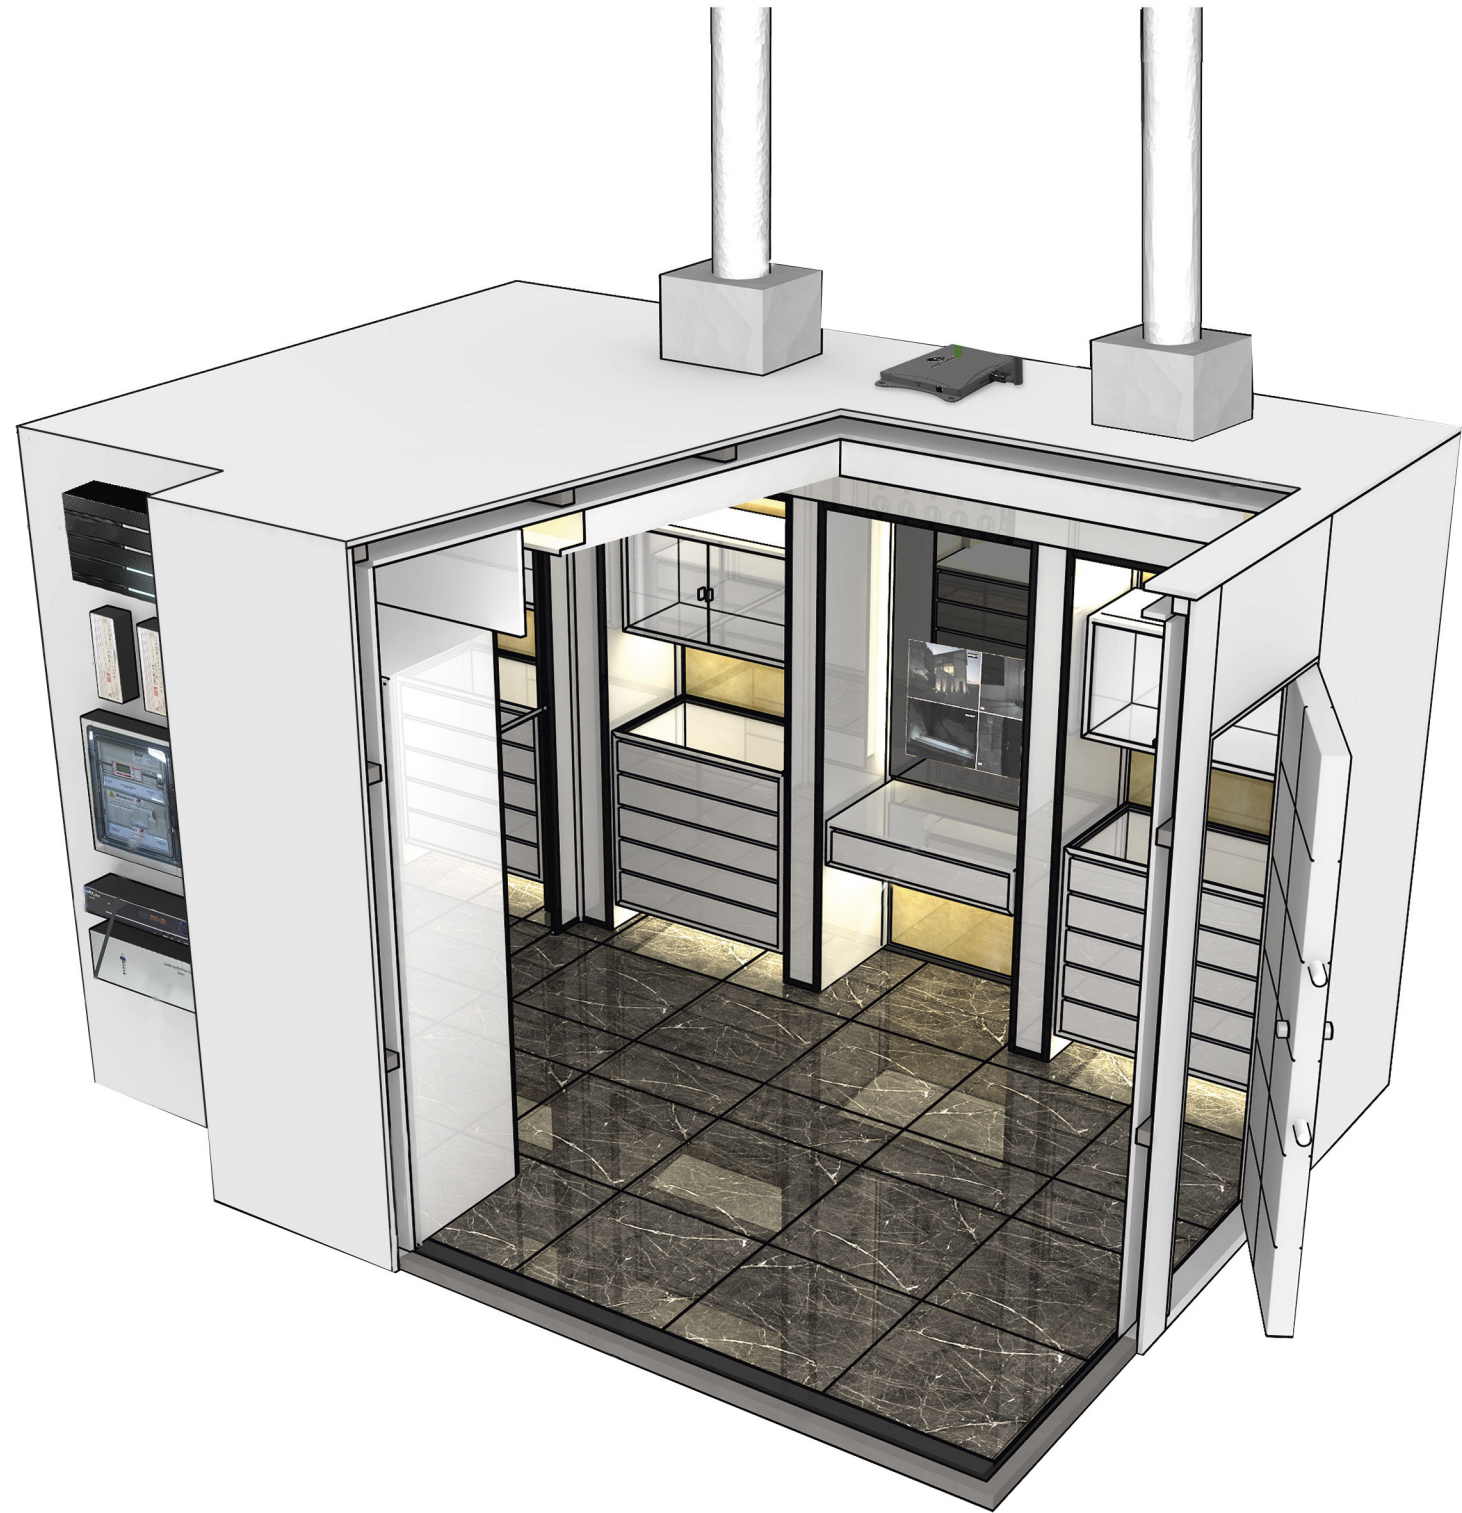

Agresti is skilled at customising its products based on the client's specific requirements, even the most precise ones.

From finishings to external dimensions, every detail can be completely personalized for a truly unique result.

THE BEST

AT ITS BEST

Home, the place where we live,
our safe haven, the place where we safeguard
our precious jewelry, watches, artwork and unique
furniture. This is why we need to build a secure,
tailor-made space inside our homes.
Thanks to Agresti, which blends the latest tools and
technology in the world of security with the very best
materials and Italian craftsmanship, there are safe,
refined and stylish storage options with
built-in cabinets equipped with
compartments and safes,
guaranteeing security and style.

Door Dimentions: W 69 D 3,5 H 100 cm

REF 22 - Guns wardrobe

Agresti selects only the finest materials for its creations, from leather and wood to metal finishes. Attention to detail plays an important role and makes each atmosphere unique with three-dimensional effects on wooden panels, lighting effects, and stitching to enhance the leather's surface.

FRONT PANELS AND FINISHES

These elements distinguish the division between recesses and highlight every element, like the chest of drawers, the shelves, and the display case. They can be made of wood (ebony, Canaletto walnut), or with a metallic effect with a polished gold, burnished gold, or chromium steel finish.

RECESS STRUCTURE

The recesses are home to every element and create the Treasure Room's main structure. Made of wood, they can be lacquered in various colours, polished or opaque, or they can be panelled in precious wood such as ebony or Canaletto walnut.

Canaletto walnut

RECESS BACKDROP

Considered a “backdrop”, these elements distinguish and refine the recesses, enhancing the entire atmosphere. These backdrops can be sheathed in matelassé leather (also available with contrasting stitching), or panelled with precious wood; the wooden panels can be further distinguished with three-dimensional finishes or LED illumination.

UPHOLSTERY FOR DESIGN ELEMENTS

All design elements can be upholstered in leather with matching or contrasting stitching along the borders. The drawer’s front elements can also be sheathed in carbon fibre. The interiors are lined in ultrasuede according to the other elements’ colours.

Carbon fibre

TRAYS AND DETAILS

The lining of the removable trays, the handles, and watch winder straps are produced in leather with stitching along the borders to match or contrast with the leather's colour.

HANDLES

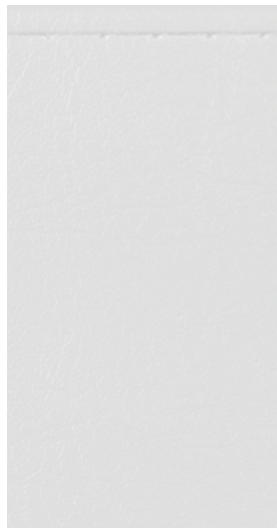

There are different options for customising the handles, from the shape to the finish, and there is even the possibility of incorporating precious materials like diamond dust.

INTERIOR LINING

Every one of the structure's interior spaces are distinguished by upholstery implemented in ultrasuede and according to the colour of the other components; this material gives a feeling of softness and supports the jewelry's proper safekeeping.
